Founder of SEA College of Arts Commerce and Science

Sri. A. Krishnappa, a visionary, educationist and a philanthropist founded the South East Asian Education Trust in the year 2000 and under the aegis of this trust SEA College of Arts Commerce and Science was started in the year 2000. Sri. A. Krishnappa was a successful politician who remained in mainstream politics for nearly 3 decades. He was elected four times as MLA to Karnataka Legislative Assembly and served as Minister for 8 years holding vital portfolios such as Social Welfare, Animal Husbandry, Sugar & Horticulture.

Sri. A. Krishnappa firmly believed that the socio-economic edifice of this country can only be built on the solid base of education. Realizing that professional education such as engineering was beyond the reach of bright and talented students coming from socially and economically backward sections of the society, he started SEA College of Arts Commerce and Science with a noble cause of imparting good quality education at affordable price even to such vulnerable sections of the society.

Today 16 institutions including state & ICSE schools offering primary & secondary education, PU & Degree college, institution of Management, Teachers training, Nursing, Law and Engineering are running successfully under the umbrella of SEA Education trust providing diversified education right from KG to PG degree.

Management Team

The primary focus of all our efforts at SEA is to continuously fine tune our education delivery systems and internal processes to accord with the needs and challenges of the contemporary world. Apart from imparting relevant domain knowledge and building competencies necessary for effective functioning anywhere in the world, we also make continuous efforts to improve the sensitivity of our students to different ethos, which they may experience in the course of their careers. The aim is to make our students autonomous and socially responsible human beings capable of self direction and ready for employment the day they graduate.

Mrs. Manjula A. Krishnappa,
Chairman, S.E.A.E.T.,

The S.E.A.E.T family shares a deep tradition. It is a tradition known to the new student who walks into his/her first class, to the student-athlete who takes the field, and to our dedicated alumni around the world. We are called upon to be leaders, and to do our very best. We welcome those of you who want to learn more about it.

Sri D.T. Srinivas is the secretary of SEA Group of Educational Institutions since its inception. He is a Civil Engineer and rendered meritorious service in the Karnataka Administrative Service Cadre as a KAS officer.

Mr. D.T. Srinivas, Secretary, S.E.A.E.T.,
B.E.(Civil) M.Tech., M.A., M.B.A., LLB.,
Ex Police Officer, Ex K.A.S. Officer

We at S.E.A.E.T have a vision to impart quality education, bring out the hidden skills and abilities of the students with proper discipline. We will provide meaningful education, research and training at all levels to match global standards. Our policy is to mould the students by building confidence in them by imbibing qualities like discipline, dedication and determination. We have put together an experienced team of highly qualified, motivated and dedicated staff, supported by excellent infrastructural facilities to make the institution an ideal place of learning.

I wish you success in all your future endeavors.

Mrs. Poornima Srinivas, M.A.,
C.E.O, S.E.A.E.T., BBMP Corporator

SEA Group is a friendly place to study and small enough to know and care for each other and build a social network that endures. The enabling ambience of the college is consistent with the learning objectives of the students and need of their overall development as professionals. This year's goal is to reinforce the faculty at the highest level of academic hierarchy and to strengthen the infrastructure and processes to be in consonance with the level of excellence to which the group aspires. SEA group colleges have institutional arrangements for capacity building through development of soft skills and value added courses which bridge the gap between expectations of the corporate world and the world of academia.

About Us

The South East Asian Education Trust was established in the year 2000 with the main objective to provide academic excellence to all sections of the society. The trust focus on imparting quality education, disciplined integrated personality development, research, management skills to face the global challenges.

The campus at South East Asian Education Trust with its extensively landscaped garden, is widely acknowledged as one of the most beautiful in Bangalore, harmoniously combining buildings and open spaces. S.E.A.E.T prides itself on its world-class facilities, Intermingled with the heritage protected buildings and state-of-the art teaching and research facilities, including lecture and performance theaters, tutorial space, studios and laboratories. S.E.A.E.T has computer laboratories throughout the campus, carrying the latest software & hardware in general and subject-specific.

Studying in S.E.A. College

S.E.A.C.S.A.M believes in a value driven organisational culture that motivates students, staff and our faculty members to think of education as something that helps to unfold and express oneself to be performers and achievers through learning and self realisation. The campus propagates as family culture where members accept each others' strengths and weaknesses, pain and pleasures and thereby support and groom its family members to be mentally stable and physically agile to live, learn and lead. The institute induces cent percent hard work, self regulation and self discipline so that its members should be known as outstanding, situational decision makers when faced with dynamic changes.

S.E.A.C.M.S. understands that there are no shortcuts to becoming achievers in their personal and professional life. The value system inculcated young minds to help them be prepared for a paradigm shift from literacy to education, being reactive to proactive, being lead by others to being initiators, competition to collaboration, self centeredness to team centeredness, casualness to creativity, inactivity to competency to become exceptional professionally and personally. The institute induces self discipline rather than supervision.

Features

Exciting internships & placements.

Add on courses and specialisations at industries.

Close contacts to academic and industry-interaction.

A well stocked library with periodical and titles.

E-learning facilities & Communication Lab.

Committed faculty with industry experience.

Emphasis on inter-disciplinary study and innovation.

Comprehensive career development programme.

// As we are from different countries, cultures and professional backgrounds there is plenty of scope to look at problems from different perspectives for better overall management solutions //

Training and Placement Cell

START

A New Career

Track

The training and placement cell of the college will guide the students in interview techniques, entrepreneurial skills, communication skills and group discussions, periodically experts' lectures are being arranged in the campus.

We keep in touch with the industry to explore varied opportunities for our students. Also we, identify technology requirements in the industry and train our students in the required technologies.

Placement Facts

- Integrated into degree programmes as a core part of the curriculum
- Major organisations target S.E.A. College for placement of students
- To bridge the gap that currently exists between the industry and fresh professionals for recruitment purposes.
- To increase the efficiency in terms of time, energy and costs in the process of recruitment.
- To evolve streamlined and classified information that matches the needs of employers and prospective employees.

Majority of the Industries are venturing upon campus recruitment drive and it has motivated the students to undergo programmes; Personality development, entrepreneur development, soft skill development to face the interview both personal and at group level.

Campus Facilities & Support Services

Mind Scope

The S.E.A.C.S.A.M campus is exclusively designed to meet the high standards we have set for ourselves that can compete with the best technical institutions in the counter. Spread over a sprawling 16 acres of land consisting of lush greenery and extensively landscaped gardens harmoniously combining with the world-class facilities consisting of heritage protected building, state-of-the-art teaching and research facilities, food court, hostels, indoor and out-door sports complex and other amenities.

Central Library

There is a well stocked exclusive central library. Keeping in tune with the developing trends, a digital library with INDEST, DELNET and other library linkages are also planned. Full automation is proposed for the library including the bar-coding of the books for speeding up of the library transactions, monitoring and facilitate quick stock verification annually.

Central Computing Facility

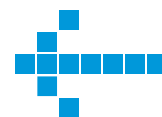

Keeping in tune with times every department will be provided with an independent Computer Centre / facilities. Also, the first year computer courses are assigned to the respective departments. It is also planned to equip each department with the latest computer systems and peripheral devices.

Browsing Centre

A centralized computer centre with high speed & dedicated lease line of 1MB accessing internet connections available to the students in the campus.

Labs

Our well-equipped labs enable the students to experimentally verify concepts relevant in the class by practical work.

Hostels

Separate secure hostels are available for boys and girls. The hostels are located in a quiet residential neighborhood. The hostels provide quality, hygienic vegetarian & non-vegetarian food. Our hostel is well secured and safe with round the clock security.

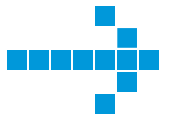

Hostel life is an important part of college. Getting to know your fellow students and living in an environment conducive to pursue studies is vital to academic performance in the college years. It is just home away from home and a bridge for students to learn independence before venturing into their careers.

Amenities

International Learning Opportunities

BBM (*Bachelor of Business Management*)

The BBM programme provides a high quality professional education in management for young men and women who wish to join at middle level positions in industry, business and non-profit organizations and to seek entrepreneurial or self-employment positions. The rigorous training offered by the college helps the young minds to prepare for the challenging managerial opportunities of the 21st century. Our training programme focuses on equipping each individual with conceptual, analytical, communication skills and healthy attitudes to ensure for excellent performance and committed service.

We are always enthusiastically striving towards achieving our mission - which is to provide students with a sense of history, an understanding of values and ethics, a commitment to law and morality, an appreciation of human creativity, and an analytical quest.

The department has the best input of students. They work very hard with our core values – discipline, dedication and deference. The collective effort of the staff and students evident from the excellent results and placements.

Program Aims:

- Enabling students to acquire contemporary management ideas and concepts.
- Developing the ability of students to apply such concepts to practical situations.
- Providing a comprehensive learning experience, designed to meet the needs of Global Business.
- Facilitating learning through complementary networks of students, faculty and industry professionals.

Course Structure

SEMESTER : I

- Language: Kannada/Hindi
- English
- Business Economics
- Fundamentals of Accounting
- Business Management
- Business Mathematics

- Business Communication
- Human Resource Management
- Marketing Management
- Corporate Accounting
- Services Management
- International Business
- Computer Fundamentals

SEMESTER : IV

- Business Research Methods
- Business Law
- Cost Accounting
- Financial Management
- Productions & Operations Management
- Computer Business Applications
- Indian Constitution

SEMESTER : V

- Income Tax
- Strategic Management
- Management Accounting
- Computer Application in Business
- Project Management
- Entrepreneurial Development

SEMESTER : VI

- Management Information System
- Elective - I
- Elective - II
- Elective - III
- Elective - IV
- Project Report & Viva Voce

Electives

- HRM
- Marketing
- Finance
- Information Technology Management
- Insurance
- Advertising & Media Management
- Tourism
- International Business

Eligibility

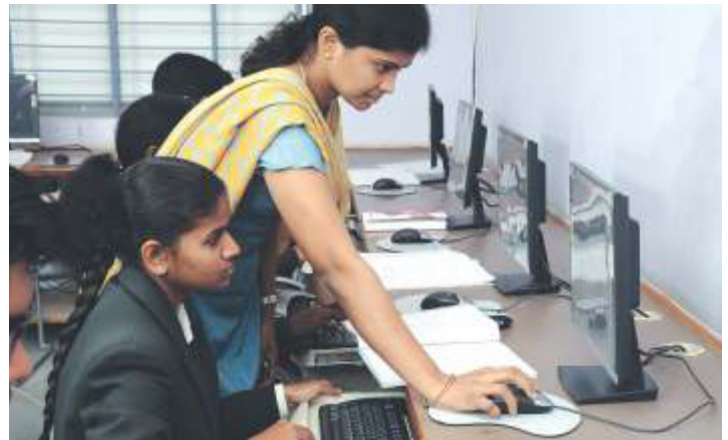

Students who have completed two-year Pre-University Course of Karnataka State or equivalent there to are eligible to seek admission to BBM degree course.

Duration of the Course

The course of study for the BBM Degree shall extend over a period of three academic years. Each academic year comprising of two semesters and each semester comprising of sixteen weeks of class work.

Medium of Instruction

The medium of instruction and examination shall be in English.

Attendance

A student shall be considered to have satisfied the requirement of attendance for the semester, if he/she has attended not less than 75% of the number of working periods in each of the subjects.

Future Prospects

Front line managers in various corporate MNC's in different fields like Banking, Insurance, Marketing, Advertising and Accounts at different levels like entry level, executive level and management level. They can opt for either in house or outdoor jobs as they like.

High-energy
learning
environment

BCA *(Bachelor of Computer Applications)*

The program aims to educate students in the science and practice of IT. The emphasis is on hands-on practical training of software development. The curriculum prepares students for a career in the fast lane of software development and programming.

The program enables the student to be updated on the latest revolution in technology and equips him/her with the required skills and knowledge to assimilate into the industry at ease. The content delivery is uniquely complemented by extensive practical training. The course covers computer programming, algorithms, problem solving, software development, mathematics, artificial intelligence, software engineering, operating systems, and graphics and so on.

Programme Aims:

- At the undergraduate course, students get a strong exposure into all the nuances of computer sciences more specifically in programming languages, software engineering, computer design and architecture.
- Interact with real-life situations and to build systems which can be efficiently processed on computers.
- Take up positions in systems management and project management in leading IT corporations.
- To develop sound practical skills to enable them to addressing problems which arise from computer systems and applications.

Course Structure

Semester I

- Mathematics – I
- Accounting & Financial Management – I
- Functional Kannada
- Basic Electricals & Electronics
- Computer Concepts & C - Programming
- Indian Constitution
- Computer Lab 1.1
- Computer Lab 1.2

Semester II

- Mathematics – II
- Accounting & Financial Management – II
- English
- Numerical and Statistical Methods
- Data Structures Using C
- Human Rights & Environmental Studies
- Computer Lab 2.1
- Computer Lab 2.2

Semester III

- Computer Organization & Architecture
- OOPS Using C++
- Discrete Mathematical Structures
- Visual Programming
- Personality Development & Communication Skills
- Computer Lab 3.1
- Computer Lab 3.2

Semester IV

- Design & Analysis of Algorithms
- System Analysis & Design
- System Programming
- Data communications
- Microprocessors
- Computer Lab 4.1
- Computer Lab 4.2

Semester V

- Operating Systems
- Internet Programming
- Database Management Systems
- Software Engineering
- Operations Research
- Computer Lab 5.1
- Computer Lab 5.2

Semester VI

- Computer Graphics
- E-Commerce & Web Designing
- Introduction to UNIX
- Object Oriented System Design
- Computer Networks
- Project Work
- Viva – Voce

Eligibility

Students who have completed two-year Pre-University Course of Karnataka State or equivalent there to are eligible to seek admission to BCA degree course.

Duration of the Course

The course of study for the BCA Degree shall extend over a period of three academic years. Each academic year comprising of two semesters and each semester comprising of sixteen weeks of class work.

Medium of Instruction

The medium of instruction and examination shall be in English.

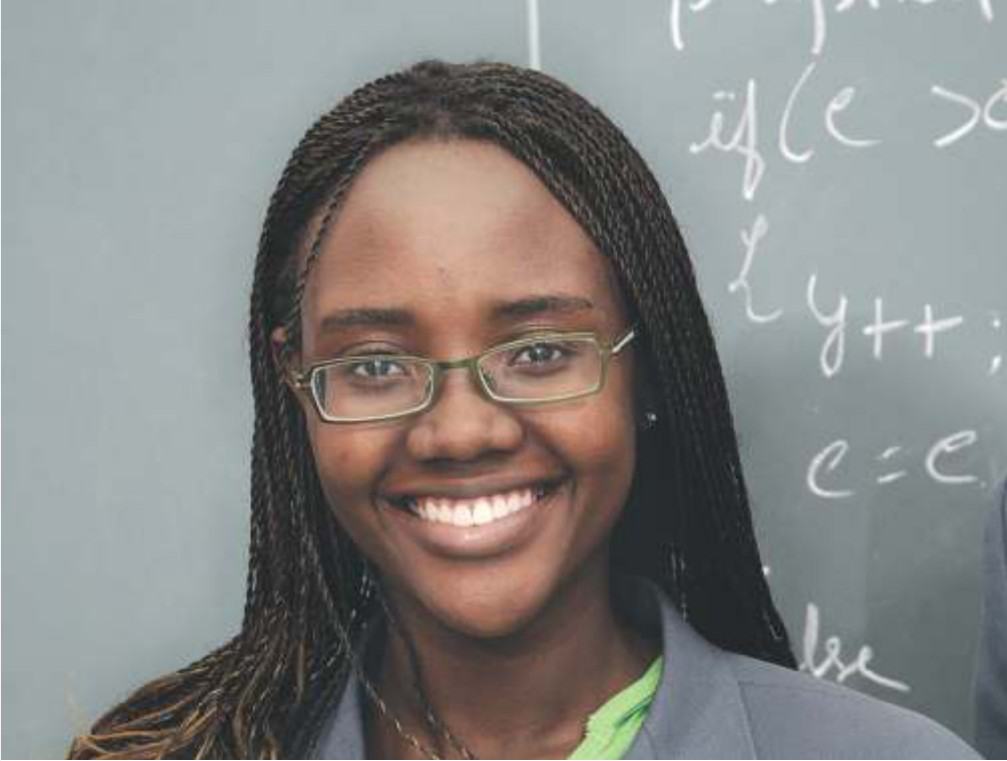

Attendance

A student shall be considered to have satisfied the requirement of attendance for the semester, if he/she has attended not less than 75% of the number of working periods in each of the subjects.

Future Prospects

Programmer, Developer, BPO / Call Center (Voice/Non-Voice based), Data Entry Operators, Lab Instructor & System Administrator

**Program focused
on the
career success**

B.Sc. *(Bachelor of Science)*

(Mathematics, Electronics & Computer Science)

This program is designed to prepare individuals who are technically sound & capable of fitting into the modern IT environment in the present industry scenario. This study program roots the individual with a solid technical background & real time experience on tools to handle the most demanding aspects of information systems.

This course provides a broad outline of various aspects of information systems and delves in a broad manner into the different ways of information handling, transmissions & processing. The program requires students to take courses in programming, data structures algorithms, numerical computation databases, computer graphics, software engineering, operating systems & programming languages.

The course keeps every student updated on the latest in information technology relating to the immediate industry scenario. The practical exposure with the right dosage of theory ensures the student is moulded in the optimum degree to undergo the rigorous requirements of the demanding knowledge industry.

Programme Aims:

- To learn in detail Electronics, Communication System, DSP, micro processing programming and semiconductor technology.
- Students will be engaged in Electronics and Computer Science Projects.
- To understand software development; learn in detail major programming of Computers.
- To learn advanced mathematics, such as numerical analysis, calculus, linear programming & complex analysis.
- Students will be engaged in Electronics & Computer Science projects.

Course Structure

- Computer Fundamentals and C Programming
- C Programming Lab
- Data Structures and Operating Systems
- OOPS using C++ and DBMS
- Software Engineering and System Software
- Computer Networks
- Internet Technology
- Basic java and Unix Programming
- Interactive Computer Graphics and simulation and modeling
- Computer Architecture and Multimedia
- DBMS
- Computer Networks
- Internet Technology
- Basic java and Unix Programming
- Interactive Computer Graphics and simulation
- Modeling Computer Architecture
- Multimedia Technology

Attendance

A student shall be considered to have satisfied the requirement of attendance for the semester, if he/she has attended not less than 75% of the number of working periods in each of the subjects.

Future Prospects

The candidate with the bachelor degree in computer science shall be eligible for pursuing further jobs in: Software Industry, Call Centers, Software research centres, Teaching etc.

Eligibility

Students who have completed two-year Pre-University Course of Karnataka State or equivalent there to are eligible to seek admission to B.Sc. degree course.

Duration of the Course

The course of study for the B.Sc. Degree shall extend over a period of three academic years. Each academic year comprising of two semesters and each semester comprising of sixteen weeks of class work.

Medium of Instruction

The medium of instruction and examination shall be in English.

Leadership
in the
real world

B.Com. *(Bachelor of Commerce)*

The program enables students to complement the study of accounting and finance with the study of computer application relevant to accounting. Computers have penetrated into every sphere of life and accounting and finance is no exception.

Knowledge of accounting and computers is very essential for young aspirants to make a jumpstart in their career. The course targets those who are eager to acquire knowledge to enable them to compete in the globally recognized economy. The content delivery has undergone adequate improvisation to suit the need of the curriculum. Sufficient exposure to computer application is provided enabling the student to be well entrenched in both business accounting and computers to meet the demanding requirements of the job scenario.

Programme Aims:

- To provide a strong knowledge in areas of Finance, Management and Marketing.
- To develop confidence in analysing, evaluating problems and taking decisions.
- To develop skills and techniques in chosen discipline with ethical concern.
- To provide a special emphasis is laid on student development with an approach to need based training.

Course Structure

Semester I

- Language: Kannada/Hindi
- Language: English
- Financial Accounting – I
- Principles of Management
- Company Law & Secretarial Practice (CLSP)
- Business Economics – I

Semester II

- Language: Kannada/Hindi
- Language: English

Eligibility

Students who have completed two-year Pre-University Course of Karnataka State or equivalent there to are eligible to seek admission to B.Com degree course.

Duration of the Course

The course of study for the B.Com Degree shall extend over a period of three academic years. Each academic year comprising of two semesters and each semester comprising of sixteen weeks of class work.

Medium of Instruction

The medium of instruction and examination shall be in English.

Attendance

A student shall be considered to have satisfied the requirement of attendance for the semester, if he/she has attended not less than 75% of the number of working periods in each of the subjects.

Future Prospects

Successful candidates can look forward to excellent career prospects as Accounts Executives, Programmers, Marketing of Accounting Software, Bank Executives, in BPO Companies, Insurance Firms etc.

Change
in your
chosen field

BA *(Bachelor of Arts)*

Combinations Offered

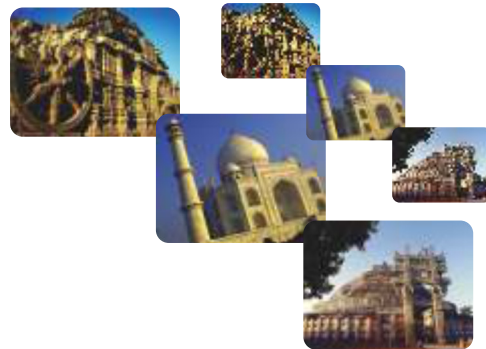

1. *History, Economics and Optional Kannada.*
2. *History, Economics and Optional English.*
3. *History, Economics and Political Science*
4. *Sociology, Economics and Political Science*

History

Modernist history claimed its legitimacy as a discipline through the pattern of past reality. Hence, modernist historians articulated that ignorance of the past brought a condemnation of living perpetually in the present. The post modernists have challenged this notion of past as it actually was, mapping out the inconsistencies of the past and history. Rethinking history as a discourse through which meaning is created rather than discovered, stresses on the cultural process of knowledge creation and organisation, rather than seeing knowledge as a kind of discoverable. This is an alternative view that sees history as a truth-making rather than a truth-finding discourse.

Sociology

The course aims to provide a systematic introduction to sociology. It lays emphasis on the theoretical and methodological functions of Sociology. Equal importance is given to a systematic introduction to the sociological studies in India. Contributions of eminent Indian sociologists and substantial themes of Indian Society are included in the syllabus. The students are exposed to divergent perspectives with Sociology and acquire the necessary skills to understand various social phenomena through the perspectives of Sociology.

Political Science

The discipline aims at imparting knowledge of indispensable institutions, concepts and ideals. The study of the subject enables an individual to learn the art of government and administration. The courses in the first two semesters focus on basic concepts of political science and major political ideologies. The next two, third and fourth, put emphasis on exclusively on the Indian Political System. The fifth and sixth semester courses deal with Public Administration and International Politics.

Economics

The undergraduate economics courses provide a sound theoretical basis in economic theory supplemented by practical applications of theories. The first four semesters are devoted to give a firm background in microeconomics, macroeconomics, development economics & international economics. In the fifth and sixth semesters, the students take two compulsory courses namely Indian Economy since Independence & Financial Economics. They have elective courses in the final year encompassing two options each semester. The elective courses offered by the department are mathematical methods for economics or health economics in the fifth semester and statistical methods for economics or environmental economics in the sixth semester.

Eligibility

Students who have completed two-year Pre-University Course of Karnataka State or equivalent there to are eligible to seek admission to BA degree course.

Duration of the Course

The course of study for the BA Degree shall extend over a period of three academic years. Each academic year comprising of two semesters and each semester comprising of sixteen weeks of class work.

Medium of Instruction

The medium of instruction and examination shall be in English.

Attendance

A student shall be considered to have satisfied the requirement of attendance for the semester, if he/she has attended not less than 75% of the number of working periods in each of the subjects.

Future Prospects

Documentation Executive, Grade 1 Exam for recruitment to IAS, IPS, IFS, FDA, SDA.

Focusing
on the
“why”, “what”,
and “how”

B.Ed. *(Bachelor of Education)*

The core curriculum in education at B.Ed. level encompasses philosophical, psychological, sociological and political aspects which form the foundation for developing the mental-set with regard to pedagogy. Its relevance in teacher education is kept in mind.

In psychology of teaching & learning, development of the learner, learning, motivation, intelligence, personality and exceptional children form part of the core curriculum. Psychological tests and case studies provide a practical basis to the study of psychology of teaching & learning.

Student teachers are exposed to the parameters of Indian system of education, its structure, problems at different levels of education and school management.

Programme Aims:

- To help the students to know and understand the philosophical and sociological foundations of education.
- To enable the students to develop an understanding of the contributions of various Indian schools of philosophy to the field of education.
- To enable the students to understand the concepts and principles of educational psychology as an applied science.

Course Structure

Semester I

- Child hood and Growing
- Contemporary India and Education
- Development and Management in School Education
- ICT in Education
- Language across curriculum
- Communication and Expository writing
- Yoga and self development

Semester II

- Learning and Teaching
- Knowledge and Curriculum Part-I
- Assessment for learning
- Pedagogy of school subject – part I
- Pedagogy of school subject- part I
- Pre Internship activities

Semester III

- Pedagogy of school subject – part II
- Pedagogy of school subject – part II
- School Internship Program

Semester IV

- Knowledge & curriculum – Part II
- National Concern & Education
- Creating an Inclusive School
- Optional Courses (Any one)
- Post Internship Activities

Eligibility

1.1 A citizen of India who has passed any Bachelor's Degree examination of Bangalore University or any University in India or abroad recognized as equivalent through 10+2+3 /4/5 pattern of education with 50% aggregate of all subjects studies in Degree course. Or a Master Degree with 50% marks.

1.2 In case of SC/ST, Category-1 and physically challenged student 45% marks in aggregate of all the subjects he/she has studied for degree course or 45% in Master Degree.

Duration of the Course

The duration of study for B.Ed. shall extend over a period of two years with four semesters.

Medium of Instruction and Examination shall be in English or Kannada.

Medium of Instruction

The medium of instruction and examination shall be in English or Kannada.

Attendance

A student shall be considered to have satisfied the requirement of attendance for the semester, if he/she has attended not less than 75% of the number of working periods in each of the subjects.

Future Prospects

A highly respectable, rewarding and lasting career, schools in the private and government sector - both within and outside India offer the first level of opportunities. This apart coaching Centers, training centers, corporate HR departments, NGOs will also offer career opportunities to the specialised candidates with experience.

True leaders
are innovators
and pioneers

MBA *(Master of Business Administration)*

The S.E.A. College offers MBA programme that has been designed to prepare students for management careers, providing a unique offerings of technology-oriented courses and curriculum. In this programme, you will develop a clear understanding of the business functions. You will also gain knowledge and hands-on skills in technology-related fields. This approach will make your skills and knowledge adaptable to a variety of industries, functions and work environments.

Our emphasis on technology and business sets us apart. The curriculum revolves around the role of technology in business, and the ways technology can improve business processes in all kinds of industries. From new 'e-commerce' ventures to more traditional manufacturing and consumer services, the intelligent use of technology is making the difference for success of organisations. of today
and tomorrow.

M.Com. *(Master of Commerce)*

The M.Com. program is intended to support students who wish to pursue a professional career in academics. Choice of career in academics is less seen as a preference particularly due to its requirement to acquire higher / research qualifications to reach a position of standing and also due to existence of better paying job avenues. Nevertheless, the career is well rewarding and satisfying for those who have a liking for teaching and are inclined to stay in academics to excel in their knowledge areas.

Program Aims

- To enable the students to acquire the necessary skills and strategies to cope with ever increasing requirements of industries and businesses in the globalized era.
- To help the students to acquire up-to-date knowledge of information technologies and business trends.
- To compete in the global market for BPO, outsourcing and other international jobs.

Course Duration

It is 2 Years (4 semesters) Full time program. In which, 3 semesters i.e. approximately one and half years will be class room teaching. The students will have to do project / dissertation. Students are to devote time to placement activities and are encouraged to take up part time assignments.
